ALCOHOL and CRIME in WYOMING

**Wyoming Association of Sheriffs
and Chiefs of Police**

WYOMING ASSOCIATION OF SHERIFFS AND CHIEFS OF POLICE

ALCOHOL AND CRIME IN WYOMING: 2024

May 2025

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting and analyzing substance-involved data from persons who have been arrested and booked into county detention facilities in Wyoming since 2005. The Association publishes the results of the analysis each year in two reports. These reports provide the data analysis necessary for state and community leaders, prevention specialists, and law enforcement administrators to devise and implement effective strategies to reduce substance-involved crime in Wyoming. This project was managed by Johnson and Associates of Douglas, Wyoming. The report was authored by Ernest L. Johnson, Director of Services.

PREFACE

The COVID-19 pandemic that struck this country in 2020 and the subsequent Delta and Omicron variants in 2021 and 2022 brought about extraordinary changes to everyday life. Five years later, it does appear that most citizens in Wyoming have now begun to resume a more “normal” routine of daily activities. Whether arrest statistics in the coming years will revert to pre-pandemic levels or will continue to maintain at the current level is yet to be determined. Adjusting to the “new normal” requires the creation of a new baseline for comparing and analyzing alcohol and other substances involved in arrest data in Wyoming.

It should be noted that nationally, it was estimated that alcohol consumption during the early months of the pandemic increased by 14%¹. In Wyoming, alcohol consumption increased even though state and local health orders closed or restricted occupancy and hours of operation for liquor establishments for much of the first year of the pandemic. It is estimated that only 670 out of 1295 liquor licenses were in operation during the time that the COVID-19 Health Orders were in effect.

Although there was a marked increase in liquor sales for the first two years of the pandemic, it does appear that alcohol consumption in Wyoming has “leveled off” since. The chart below tracks the liquor sales in Wyoming for the past five years as reported by the Liquor Division of the Wyoming Department of Revenue. The slight increase in sales reported over the past two years is attributable to an increased cost for alcohol products. The Division also has noted a decline in liquor sales worldwide.

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting substance-involved arrest data in Wyoming and publishing the results each year since 2005. This collected crime data has been useful for identifying trends for substance abuse in Wyoming communities. After experiencing a seven-year decline in the percentage of alcohol-involved arrests, the percentage began to increase again in 2019. Whether it was a result of the COVID-19 pandemic or just a

¹ As reported in a study published in the Journal of American Medical Association Network Open.

Alcohol and Crime in Wyoming - 2024

continuation of the increase that was experienced in 2019 - the percentage of alcohol-involved arrests in Wyoming increased in 2020 and again in 2021 – but has decreased slightly since as Wyoming citizens began to return to pre-pandemic “normal” daily activities.

INTRODUCTION

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting substance-related data from people booked into county detention facilities in Wyoming since 2005. The data-collection process has been refined since that initial effort and has now been institutionalized as a part of the book-in process year-round for all custodial arrests.

The Association instituted a process in 2019 that allows agencies to submit reports electronically and online. This data-collection method replaced the hand-filled paper forms that were submitted weekly by postal mail. This electronic method of data-collection provides real-time reporting, adds additional data fields to the reporting form and promotes more complete reporting. Only two agencies in the state (Park County Sheriff’s Office and Cody Police Department) did not submit reporting forms.

This report analyzes the arrests that were reported as a part of this project and this analysis may not represent the actual total number of arrests made in some counties or jurisdictions. Please contact your Sheriff or Police Chief if you have questions about the data reported for your community.

Alcohol and Crime in Wyoming - 2024

This report contains an analysis of substance-related data for “FIELD” arrests in twenty-three counties in Wyoming from January 1 through December 31, 2024. “Field” arrests are arrests that are made on-scene during a citizen encounter with law enforcement and more likely to have substance involvement. It does not include arrests made by warrant.

There were an additional 7,653 reported arrests that were made by warrant. These are mostly re-arrest situations ordered by the court and comprised approximately 42% of all reported book-ins in county detention facilities in Wyoming in 2024.

Information was collected from a total of 10,841 persons who were arrested and subsequently detained in a county detention facility because of a field encounter with law enforcement. Information has now been collected from a total of 268,454 persons who were arrested and subsequently detained in a detention facility in Wyoming during the last twenty years. Information collected focuses on whether substances (alcohol and other drugs) were involved before and/or during the arrest.

The Wyoming Association of Sheriffs and Chiefs of Police publish the results and analysis of the data-collection efforts each year in three separate reports:

- The main report provides statewide statistics and averages and a comparison of county statistics in specific categories;
- a supplemental report provides county, community, and local law enforcement agency specific statistics;
- and an Executive Summary provides selected statistics, information, and highlights from the main report.

These reports can be accessed online on the following websites: <http://wascop.com> and <http://jandaconsulting.com>

EXECUTIVE SUMMARY

This Executive Summary highlights a few of the significant findings contained in this report. It focuses on issues that are of obvious concern, or which may be of greater public interest; however, a careful review of other relevant findings and statistics contained in the main body of this report is essential to gain a more complete perspective on the impact of alcohol and other drugs on crime in Wyoming.

The profile of the average person taken to jail in Wyoming continues to be relatively consistent with previous years. About three out of four times it was a male (females have continued to increase incrementally in recent years), the average age is 37.5. 13% of the time it was an out-of-state visitor and 7% of the time it was an in-state visitor. Juvenile arrests resulting in incarceration in a detention facility accounted for less than 1% of the total reported custodial arrests (103 out of 10,481).

A review of the data collected from persons arrested and subsequently taken to jail indicates that Wyoming continues to be relatively safe from what is generally considered to be “serious” crime. The number of people who are arrested for felonies is relatively low when compared to the number of people arrested for minor crimes (misdemeanors). However, felony arrests have increased incrementally in recent years and now account for 14% of the reported arrests statewide. Ten years ago felonies accounted for approximately 7% of the reported arrests in Wyoming.

Although Wyoming is relatively “safe” from what is generally considered to be serious crime (felonies), the high percentage of alcohol-involved arrests, the inordinate number of arrests for public intoxication and driving under the influence, and the high levels of blood alcohol content for drivers arrested for being impaired represent real and significant threats to public safety.

The information collected from a total of 10,481 persons who were arrested and subsequently detained in a county detention facility in Wyoming during 2024 confirms what law enforcement officers who patrol the streets and highways and who respond to calls for service in Wyoming already know from experience – alcohol is the contributing factor most often present in situations that result in someone going to jail.

Meth. Alcohol and Other Drugs Involved Arrests

Percentages total more than 100% due to multi-involvement (polyuse) of substances involved.

SUMMARY OF REPORTED SUBSTANCE-INVOLVED ARREST STATISTICS FOR 2024:

- Alcohol was involved in 52.58% of all reported custodial arrests.
- Methamphetamine was involved in 10.5% of the 10,481 reported arrests.
- Marijuana was involved in 9.69% of all reported custodial arrests.
- Drugs were involved in 22.84% of all reported arrests.
- Arrests reported for public intoxication accounted for 7.35% of all arrests.
- The average blood alcohol content for people arrested for public intoxication was 0.2222.
- Driving under the influence arrests accounted for 29.18% of all reported arrests.
- The average reported blood alcohol content for DUI arrests statewide was 0.1596².

² In Wyoming, a person driving with a blood alcohol content of 0.08 is legally presumed to be impaired.

Alcohol and Crime in Wyoming - 2024

- 57% of people arrested for DUI had a reported BAC level above 0.16 and 21% had a BAC of 0.24 or greater.
- The average reported BAC for 346 persons who were arrested for DUI after being involved in a traffic crash was 0.1707.
- The five-year age group with the highest percentage of DUI arrests was age 21-25 (14.81%), followed by age 31-35 (13.83%) and 26-30 (13.64%).

To grasp the significance of the blood alcohol content statistics, it should be noted that a physically fit male who weighs 180 pounds would have to consume at least seven drinks in one hour to achieve a BAC of 0.15 – a female weighing 120 pounds would have to consume four drinks in one hour.

Please refer to the Alcohol Impairment Educational Guides for males and females below and in the Attachments Section of this report for information about the level of impairment for other body weights and drinks consumed.

TRENDS ANALYSIS

Even though the number of alcohol-involved arrests has decreased significantly during the last twenty years, alcohol is still the drug with the greatest impact on crime in Wyoming. Incidents of assaults, disturbances, child abuse, and domestic violence are all heavily influenced by alcohol. After three consecutive years showing an increase and peaking in 2021, the percentage of alcohol-involved arrests decreased slightly during the last three years - from 56.76% in 2021 to 52.58% in 2024. However, it should be noted that although the percentage of alcohol-involved arrests decreased in 2024, the actual number of alcohol-involved arrests increased by a total of 1,098 (from 4,413 to 5,511).

The statistics in Wyoming collected during the last twenty years clearly indicate that the two crimes that account for the greatest number of custodial arrests in Wyoming are driving under the influence (DUI) and public intoxication. Together these two crimes alone have accounted for an average of 45% of all custodial arrests in Wyoming in the last ten years.

Driving Under the Influence: Driving Under the Influence is, unquestionably, the crime that has the greatest impact and consequence in Wyoming. It accounts for the greatest number of custodial arrests and is the cause of more deaths and serious injuries than any other crime. DUI arrests have accounted for an approximate average of 28% of all custodial arrests in Wyoming for the last ten years and a third of all traffic fatalities are the result of impaired driving. ***In addition, 26.72% percent of people arrested for DUI in 2024 had been arrested for DUI previously.***

The number and percentage of DUI arrests have decreased statewide during the previous ten years; however, the average blood alcohol content (BAC) has remained at twice the presumptive level of impairment while the involvement of drugs has increased. Arrests for DUI in several counties have consistently been above the statewide average.

Public Intoxication: Public intoxication is viewed by some as just a public nuisance crime; however, incidents of public intoxication present real and significant threats to public safety. The average Blood Alcohol Content (BAC) for Public Intoxication arrests reported in Wyoming in 2024 was 0.2222 – nearly three times the presumptive level for impairment. In some counties, the average BAC for public intoxication arrests in 2024 was even higher.

Alcohol intoxication at these levels often “fuels” behavior that results in more serious crimes than just disturbances and nuisances.

EMERGING TRENDS IN THE TYPE OF SUBSTANCE INVOLVED IN CRIME: Alcohol and/or other drugs were involved in 70% of the 10,481 custodial arrests in 2024. Although alcohol continues to be the drug most often present in situations which result in someone going to jail, other drug-involved arrests in Wyoming have increased significantly in recent years.

During the last fourteen years in which data is available for a calendar-year period (2011-2024), ***the number and percentage of alcohol-involved arrests have decreased - while the number and percentage of other drug-involved arrests have increased.***

The number of alcohol-involved arrests in 2024 were 7,702 fewer than in 2011 (a 67% decrease).

The number of meth-involved arrests has increased each year since 2011 and has more than doubled since then. There were 1,100 meth-involved arrests in 2024 (there were 420 in 2011).

There were 53 custodial arrests involving fentanyl reported by the Casper police department in 2024.

The four counties with the highest number of reported arrests involving meth in 2024 were: 1) Natrona – 366; 2) Laramie – 158; 3) Campbell – 126; and 4) Fremont – 99.

The Association began collecting marijuana-involved arrest data in March of 2014 to assess the impact on public safety in Wyoming from Colorado's legalization of marijuana. The number of marijuana-involved arrests increased in the first three years, then has decreased since.

Marijuana-involved arrests have decreased in number and percentage of arrests since 2017. In 2017 there were 1,970 marijuana-involved arrests (14%); in 2024 there were 1,016 marijuana-involved arrests (10%).

The four counties with the highest number of arrests involving marijuana in 2024 were: 1) Natrona - 255; 2) Laramie – 152; 3) Sweetwater – 134; and 4) Campbell – 78.

Although the percentage of substance-involved arrests during the last five years have decreased in all categories, the actual NUMBER of substance-involved arrests increased significantly in 2024 (except for public intoxication arrests). Please refer to the two charts on the following page that provide; 1) the percentage of substance-involved arrests for the previous eleven years; and 2) the number of substance-involved arrests for the previous five years.

Alcohol and Crime in Wyoming - 2024

Substance-Involved Arrests: Number of Total Arrests

Alcohol Involved	Meth Involved	Marijuana Involved	Drug Involved	Public Intoxication	DUI
2020 4,175	2020 826	2020 1,092	2020 2,034	2020 828	2020 2,666
2021 4,060	2021 845	2021 877	2021 1,826	2021 1,136	2021 2,315
2022 4,900	2022 814	2022 850	2022 1,927	2022 1,370	2022 2,802
2023 4,413	2023 745	2023 731	2023 1,740	2023 1,062	2023 2,582
2024 5,511	2024 1,100	2024 1,016	2024 2,394	2024 770	2024 3,058

TRENDS IN ARRESTS FOR IMPAIRED DRIVING: The statistics for people arrested for driving while impaired mirror the recent trends for all substance-involved arrests. The percentage and number of persons arrested for driving impaired had decreased during the last ten years – **until 2024 when 476 more people were arrested for driving impaired than in 2023. While the percentage of drug-impaired driving arrests has increased significantly during the past six years (12.09% in 2019 compared to 19.33% in 2024).**

The average blood alcohol content for persons arrested for impaired driving during the last ten years remains at double the presumptive level for impairment – while the average blood alcohol content for persons arrested for public intoxication remains at almost three times the presumptive level.

Driving Under the Influence Arrests: 2020 - 2024

Number of Arrests	% of Total Arrests	Average BAC	Drugs Involved
2020 2,666	2020 33.35%	2020 .1656	2020 15.53%
2021 2,315	2021 32.36%	2021 .1639	2021 18.32%
2022 2,802	2022 30.86%	2022 .1655	2022 15.60%
2023 2,582	2023 32.47%	2023 .1616	2023 19.33%
2024 3,058	2024 29.18%	2024 .1596	2024 19.69%

DUI Arrests with Reported BAC in Each Range

3,058 DUI arrests, 1,509 reported BAC's, Statewide average BAC .1569

Alcohol and Crime in Wyoming - 2024

Although the percentage of DUI arrests has decreased statewide during the last ten years, the percentage of DUI arrests in several counties in the state has been consistently above the statewide average.

PUBLIC CONCERNS

The statistics contained in this report identify significant public safety issues which merit further discussion, analysis and action by local law enforcement, citizens, and state/community leaders.

The high percentage of alcohol involved arrests (53%), the inordinate number of arrests for public intoxication (770) and DUI (3,058) and the high levels of BAC recorded for these individuals (average BAC: 0.2222 for public intoxication and 0.1596 for DUI) appear to validate the concerns about alcohol abuse expressed by Wyoming residents in the most recent statewide public opinion survey³.

Some excerpts from the survey that involved 4,798 Wyoming residents:

- 79.7% view alcohol abuse by Wyoming adults as a serious or somewhat serious problem
- When Wyoming residents were asked whether they would support a state law that would prohibit selling or serving alcohol to someone who is obviously intoxicated:
 - 64.3% strongly supported such a law.
 - 17.9% somewhat supported such a law.
- 84.5% of Wyoming residents believe that drinking and driving in their community is a serious or somewhat serious problem.

³ Wyoming Alcohol Use Issues Survey, Wyoming Survey & Analysis Center, November 2012

SIGNIFICANT STATISTICS AND FINDINGS

This report provides statewide statistics and averages, along with comparisons of county statistics in specific categories. In addition, there are approximately one hundred pages of data in a supplemental report that provides county, community, and local law enforcement agency specific statistics.

Detailed charts and graphs included in the Data/Statistics section of this report are helpful in identifying trends involving alcohol-related arrest activity and provide a statistical picture of the circumstances which result in someone being arrested and subsequently taken to jail in Wyoming. The impact of substance abuse on crime statistics varies by county across the state. This report also includes a detailed analysis by county for comparison purposes.

Listed below are a few of the noteworthy statewide averages and county specific alcohol-related statistics and findings from the Data/Statistics section of this report.

- **Alcohol was a factor in 53% of the custodial arrests in Wyoming.**
 - Counties with significantly higher percentages (as well as higher numbers):
 - Teton – 80.09%
 - Fremont – 68.06%
 - Lincoln – 66.44%
- **Methamphetamine was involved in 10.5% of the arrests statewide.**
 - Counties with significantly higher number of meth-involved arrests:
 - Natrona - 366
 - Laramie – 158
 - Campbell – 126
- **Drugs (other than alcohol) were involved in 22.84% of the reported arrests statewide.**
 - Counties with significantly higher drug-involved arrests:
 - Natrona – 568
 - Laramie – 459
 - Campbell – 236
- **Marijuana was involved in 9.69% of the arrests statewide.**
 - Counties with significantly higher marijuana-involved arrests:
 - Natrona – 255
 - Laramie – 152
 - Sweetwater – 134
- **Arrests for Public Intoxication accounted for 7.35% of all arrests statewide.**
 - Counties with significantly higher statistics:
 - Fremont – 306 (22.42%)
 - Laramie – 194 (10.78%)
 - Sweetwater – 74 (9.17%)

- **The average blood alcohol content for people arrested for public intoxication was 0.2222.**
 - Counties with significantly higher statistics:
 - Carbon – 0.3400
 - Albany – 0.3350
 - Goshen – 0.2850
- **There were 3,058 Driving under the influence (DUI) arrests statewide.**
 - Counties with significantly higher number of arrests:
 - Laramie – 485
 - Natrona – 392
 - Sweetwater – 329
- **602 of the arrests for DUI involved drugs.**
 - Counties with significantly higher statistics:
 - Laramie – 135
 - Natrona – 90
 - Sweetwater – 70
- **The average blood alcohol content (BAC) reported for 3,058 persons arrested for driving under the influence statewide was 0.1596.**
 - Counties with significantly higher statistics:
 - Converse – 0.1765
 - Johnson - 0.1735
 - Campbell - 0.1720
- **24.58% of traffic crashes resulting in custodial arrests involved drugs.**
 - Counties with significantly higher number of drug-involved traffic crashes:
 - Natrona – 18
 - Sweetwater – 18
 - Laramie – 16
- **The average BAC reported for 348 arrests involving traffic crashes that involved alcohol was 0.1707.**
- **51% of the people arrested for driving under the influence had an average blood alcohol content above 0.16.**
- **347 persons were arrested for DUI with a BAC of 0.20 or higher.**
- **158 persons were arrested for DUI with a BAC of 0.24 or higher.**
- **26.72% of persons arrested for DUI had been arrested for DUI previously.**

JUVENILE/ UNDERAGE DATA

The data in this report does not represent a complete accounting of juvenile arrests as these arrests often do not result in detention in a county facility.

159 underage youths were taken into custody and placed in a detention center this year for being a minor in possession of alcohol. The average BAC was .1361.

223 underage youth were arrested for driving under the influence – 48 of these arrests involved drugs. The average BAC was .1265.

- 7% of all people arrested for driving under the influence (DUI) were under the age of 21.
- Juveniles accounted for less than 1% of the arrests statewide (103 total).
- 30% of the juvenile arrests involved alcohol (31 in total).
- Three of the juvenile arrests involved methamphetamine.
- Ten of the juvenile arrests involved marijuana.
- 15.53% of the juvenile arrests involved drugs (16 in total).

For more complete information regarding youth involvement with alcohol, please refer to the Association's annual report on Wyoming Youth and Alcohol. These reports can be found on <http://wascop.com> and <http://jandaconsulting.com>.

PROJECT DESIGN AND IMPLEMENTATION

The Wyoming Association of Sheriffs and Chiefs of Police contracted with Johnson and Associates, a Wyoming based management consulting firm, to manage and staff this project – to create the master database, to analyze the data and to author the three reports. The Association has contracted with Johnson and Associates to manage and staff this project since its inception.

A task force comprised of administrators and detention facility personnel from each of the county law enforcement agencies involved in the initial data collection efforts in 2005 determined the scope and intent of the project and provided specific direction for its implementation. In the following years, Association members were involved in deciding the appropriate fields for collection of data, selecting the subject areas that would be targeted for analysis and refining the process and procedures for collecting the information.

The master database for this project was created in a manner that will allow “harvesting” of additional information in the future should a need arise. The data in this report is presented by “county” and by “department,” by actual numbers and percentages, and by various categories of interest. The information was assembled in this manner to assist law enforcement administrators, as well as community leaders, to better analyze the information and to facilitate follow-up inquiries of notable concerns.

DATA COLLECTION

A one-page reporting form consisting of fill-in or checked boxes was constructed for this project and refined over the years. It is estimated that the form requires the booking and/or arresting officer two to three minutes to fill out during the book-in process. Specific information that is collected during the book-in process include: type of offense, whether alcohol was involved, whether drugs were involved, location of last consumption and point of sale, known blood alcohol content levels for arrests involving public intoxication, driving under the influence, minors in possession, and demographic information. (A sample of the reporting form is included in this report)

In 2019, the Association transitioned from a hand-filled paper form submitted weekly by postal mail to an electronic form submitted online. The reporting form contains instructions for

Alcohol and Crime in Wyoming - 2024

completing and processing the completed reporting forms. In addition, all agency staff who were assigned the responsibility to oversee their agencies' data collection were provided individual orientations.

A total of 10,481 reporting forms for "field" arrests were submitted by the twenty-three counties during the twelve-month data collection period January 1 through December 31, 2024. An additional 7,653 reporting forms were submitted for warrant arrests. These are mostly re-arrest situations ordered by the court and comprised approximately 45% of all reported book-ins in county detention facilities in Wyoming in 2024.

However, as mentioned previously in the INTRODUCTION section of this report, there were two agencies that did not submit reports for this project. Park County Sheriff's Department and Cody Police Department did not participate in this project and no longer submit reports.

This report analyzes the arrests that were reported as a part of this project and this analysis may not represent the actual total number of arrests made in some counties or jurisdictions. Please contact your Sheriff or Police Chief if you have questions about the data reported for your community.

DATA /STATISTICS

All information contained in the reporting forms that were submitted by the participating counties was entered into a master database by day and by month. This information was subsequently assembled by category, by county, and by department to facilitate appropriate comparisons and further analysis.

A detailed breakdown of information for each county is available in a separate Supplemental Report.⁴ A sample of the county statistics is included in this report. Laramie County was selected as the sample to be included as this county generated the greatest number of arrest statistics.

The substance-related arrest data in this report is presented in a series of tables and graphs:

- ❖ Tables – Number of Arrests and Percentages
- ❖ Pie Chart – Methamphetamine, Alcohol and Other Drugs
- ❖ Tables – Felony/Misdemeanor Arrests Involving Alcohol
- ❖ Bar Graphs – Alcohol Arrests Percentages, BAC
- ❖ Pie Graphs – DUI, BAC, Traffic Crash Statistics
- ❖ Tables and Bar Graphs – Juvenile Statistics
- ❖ Pie Graph – Juvenile Demographics, Where Minors Obtain Alcohol
- ❖ Table – Natrona County Statistics (Sample County Statistics)

PLEASE NOTE: Cheyenne Police Department policy allows misdemeanor DWUI offenders to be cited and released if the arrestee's vehicle has been impounded or turned over to a responsible adult and if the driver is released to a sober adult. These additional arrests statistics have not been included in the DUI statistics in this report (as they were not booked into a detention facility).

⁴ A PDF of this report and the accompanying Supplemental Report can be downloaded from the following websites: <http://wascop.com> and <http://jandaconsulting.com>

*Total of percents in Location of Consumption and Point of Sale

No public events named in alcohol collection reports.

The following information is being collected in an effort to evaluate alcohol factors in custodial and DUI arrests in Wyoming. The data is used for statistical analysis purposes only. Please complete a separate submission for each person booked into your facility.

Complete the entries based on your knowledge of the case, personal observations, and/or questioning of the arrested person. The person should be advised no case sensitive information is being recorded.

Each agency is provided a final copy of the information available and may request statistical information at any time by contacting WASCOP. Thank you for your assistance in this vital project.

Submitting Officer First Name: _____ **Last Name:** _____

Submitting Agency: _____ **County:** _____

Arresting Agency: _____ **Arrest Date:** _____

Age: _____ **Gender:** Male / Female **Warrant Arrest? *If yes, you do not need to complete the rest of this form:*** Yes / No

| ☐ Domestic Violence | ☐ Resisting Arrest |
| ☐ DWUI | ☐ Other (Not Listed) |

Previous DWUI?: Yes / No

Involved in a Crash?: Yes / No

Alcohol Involved?: Yes / No

- ☐ Refused Testing
- ☐ Warrant Issued – Sample Obtained
- ☐ Warrant Issued – Forcible Draw
- ☐ Warrant Issued – Refused Testing – Did Not Obtain Sample

Intoximeter Result: _____ Urinalysis Result: _____

PBT Result: _____ Blood Test Result: _____

Drugs Involved?: Yes / No

- ☐ Cannabis
- ☐ Cocaine
- ☐ Methamphetamine
- ☐ Opioid
- ☐ Prescription Medication
- ☐ Unknown

Last Known Location of Consumption?: Residence Vehicle Private Party/Event

Liquor Establishment _____ Public Event _____

Other _____ Refused/Unknown

Location Alcohol Obtained/Purchased?: Residence Private Party/Event Public Event _____

Alcohol Dispensing Business _____ Other _____

Refused/Unknown

ACKNOWLEDGEMENTS

The Association instituted a data-collection process in 2019 whereby the arresting officer or book-in officer was able to submit an electronic reporting form to the Association at the time of the arrest. This replaced the use of hand-filled paper forms that were submitted by postal mail by each detention facility supervisor once a week.

This project was initiated in 2005 and continues to be accomplished due to the committed support of the law enforcement administrators in Wyoming and their generous commitment of agency resources. The day-to-day supervision and submittal of the project reporting forms and the individual efforts of every officer who filled out the reporting forms should be acknowledged as well. Their collective efforts were essential to the overall success of this project.

RELATED EDUCATION & EXPERIENCE:

- Twenty-four years of experience as an administrator of a state agency with direct responsibility for budget development and administration, planning, organizing, directing, staffing, and program services delivery.
- Master's degree in public administration; over thirty-five years of experience training and working with executives to achieve excellence in government, managing and implementing change, increasing organizational effectiveness, and maximizing program efficiency.
- Conducted in-depth management studies for criminal justice agencies for the states of Massachusetts and New Hampshire. These studies assessed the delivery of program services by agencies with statewide responsibilities and provided recommendations for increasing organizational efficiency and agency credibility.
- Over thirty-five years of experience in researching, writing, and administering a variety of federal and state grants. Grants involved more than several million dollars for a wide variety of purposes: personnel, equipment, training, research and providing services with targeted priorities.
- Extensive experience in researching, evaluating, and implementing a wide variety of projects. These projects varied in scope and duration, and many required the involvement and partnership of multiple agencies and personnel throughout the state, as well as the enactment of state legislation.
 - Evaluation performed for the Substance Abuse Division - WDH – “Responsible Server Training Program” – October 2002
 - Managed the Wyoming First Lady's Initiative to Reduce Underage Drinking – November 2004 to September 2006
 - Managed project and authored report: A Comprehensive Review of Alcohol State Statutes: Findings and Recommendations for Reducing Underage and Binge Drinking in Wyoming – 2008
 - Management Review of the Wyoming Seat Belt Coalition: Mission, Goals and Work Scope – September 2011
- Inducted into the Wyoming Association of Sheriffs and Chiefs of Police Law Enforcement Hall of Fame - 2011

- Thirty years of experience in conducting a variety of feasibility studies.
 - Conducted numerous feasibility studies for the Wyoming Legislature.
 - Most recent feasibility study conducted for the Town of Wright: “Should the Town of Wright create its own Police Department?” May 2004
- Conducted executive level training for the US Department of Justice/ State Department:
 - Instructed a 40-hour training course entitled “The Office of Professional Responsibility” for the Lithuania National Police command staff - 2001.
 - Instructed an 80-hour training course entitled “Sex Crimes Investigations” for Investigators and Prosecutors in Lithuania - 2001
- Faculty - Criminal Justice Department - University of Wyoming (September 2000 to September 2012)
 - Taught the following classes: Criminal Justice Management, Concepts of Modern Policing, Ethics in the Administration of Justice, Criminal Justice Civil Liability, Politics and the Judicial Process, Criminal Courts and Processes, and Police Deviance.
- Management consultant for the Wyoming Association of Sheriffs and Chiefs of Police - Projects completed or currently in progress:
 - Evaluation of Alcohol Factors in Custodial Arrest in Wyoming – May 2005
 - Statewide Public Opinion Survey: Alcohol Issues and Policies (phone survey of 4,600 residents of Wyoming – Report released November 2006
 - Evaluation of Alcohol Factors in Custodial Arrests in Wyoming - 2006: Phase I (data collection), Phase II (Analysis, Findings and Strategies)
 - Evaluation of Alcohol Factors in Custodial Arrests in Wyoming – 2007, 2008, 2009
 - Alcohol and Crime in Wyoming: 2006 – 2008
 - Alcohol and Crime in Wyoming: 2010 - 2024
 - Wyoming Youth and Alcohol Reports: 2010-2024
 - Project Manager for the Enforcing Underage Drinking Laws Program – September 2007 to May 2009
 - Project Manager for WY-CIA Wyoming Communities in Action – Phase I, Phase II – September 2007 to May 2009
 - Project Manager for Reducing Underage Drinking and Driving – October 2007 to September 2009
 - Project Coordinator for Project Safe Neighborhoods in Wyoming: A national initiative directed by the US Department of Justice aimed at reducing gun crimes and violence in this country - 2006 through 2012.
- Facilitator/Coordinator for the Wyoming Seat Belt Coalition – December 2006 to 2014
- Administration and coordination of WYDOT-Highway Safety’s Selective Traffic Enforcement Program Grants for Wyoming law enforcement agencies– December 2008 to October 2020
- Facilitator for the Wyoming Safe Communities Project – FY 2012
- Facilitator/Coordinator for the Governor’s Council on Impaired Driving – December 2011 to October 2020

WYOMING'S ALCOHOL IMPAIRMENT EDUCATIONAL GUIDE

MALES - APPROXIMATE ALCOHOL CONCENTRATION (AC) PERCENTAGE

Estimates based on physically fit adult males who consume the alcohol over a one hour period.

DRIVING IMPAIRED
AC = .05% - .07%

Subtract .01% for each 40 minutes of drinking.
One drink is 1.25 ounces of 80 proof liquor,
12 ounces of beer, or 5 ounces of table wine.

LEGALLY INTOXICATED
AC = .08% AND UP

NOTE: PERSONS UNDER THE AGE OF 21 CAN FACE CRIMINAL PENALTIES IF CAUGHT DRIVING WITH A DETECTABLE ALCOHOL CONCENTRATION OF 0.02% OR MORE.
